

The figure displays three box plots representing the distribution of the variable 'number' across three categories: 'low', 'medium', and 'high'. The y-axis is labeled 'number' and ranges from 0 to 100. The 'low' category (blue) has a median around 10, with a box from approximately 5 to 15 and whiskers extending from 0 to 20. The 'medium' category (orange) has a median around 40, with a box from approximately 35 to 55 and whiskers extending from 20 to 60. The 'high' category (green) has a median around 70, with a box from approximately 65 to 85 and whiskers extending from 50 to 90. All three distributions are right-skewed, with several outliers indicated by black diamonds above the upper whiskers.
